

Gentlemen:

I have been remiss in getting a Thank You out for making it possible to participate in the first Never Forgotten Honor Flight from Wausau to Washington D.C.

It was truly awesome and an experience I shall never forget. I'm sure the rest of the WW2 vets and guardians enjoyed it as much as I did.

The planning and execution of this wonderful event by you and your staff could only be likened to a General conducting a battle plan from start to finish. All of you are to be commended.

Thank you once again from the bottom of my heart.

Most Sincerely John M Brawders
